**1 March 2021**

### Message from the Guest Editors

Dear Colleagues,

The aim of the present Special Issue is to understand the transformation potentials leading to pathways for sustainable logistics business models. Accordingly, the following research questions guide the Special Issue:

- How can we play a proactive role in managing the logistics network while considering environmental sustainability?
- How can we balance economic viability of the logistics outsourcing partners while simultaneously aiming for environmental and social performance targets?
- How can we choose 3PL/4PL that are able to ensure environmental stability and comply with government regulations?
- What are the major performance metrics of evaluation needed for choosing logistics partner outsourcing?

As the Guest Editors, we are pleased to invite you to contribute to this Special Issue dedicated to assessing the role of 3PL and 4PL providers to support Sustainability Development Goals in developing nations. Both conceptual and real-life case study papers are welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
